Additional Truths about Clothing!...

CONCERNING OURS.

We're overcoming the prejudice against "Ready-Made" Suits by showing Tailors' Patterns and Nobbler Styles than the people have been accustomed to seeing hereabouts.

We're winning the trade by selling at prices that appeal to the economical, and invariably lower than any in the city, notwithstanding the "seeming" special inducements of others. We're displaying the trade by giving them perfect-fitting Clothing. In fact we've been told, as soon as our Suits get on the street away from our store, the best merchant tailor gets credit for having made them. We won't quarrel, though. We'll arbitrate. Give the sales the credit, but go on buying our suits.

This Weather Creates a Desire for a Fall Outfit.

WHERE WILL YOU BUY? All the dealers are clamoring for your trade. Some have "peculiar" inducements, especially at this season for "gilt-edged" Clothing.

Of course you'll buy where you can best be suited and get the best values. It's hard to tell it from the "ads" you see, but we want to be so judged. Reliability is necessary to success—we're satisfied with our success.

ROMESPUNS in Suits are victorious this season: Romsespuns dominate the demand for Fall Wear. They come in extremes—extremes in fineness and elegance—extremes of shagginess and richness—So Stylish. How, did you say?

\$5, \$7, \$10, \$12, \$14, \$16

If you're going to wear a Ready-made Suit, you should be our customer. We're after your trade, "on the square," not with the "cheap" "cackle" of \$15 for \$10—but with the style and fabric, at prices that are at all times lower than the "cackle" price.

Mountain of Overcoats

We will mention one line. We planned the surprise months ago, got a Overcoat that talks—got a number of them—brown, blue, purple, wool, Kersey—heavy tweed lining—made on honor, made pure. We say it is the biggest \$5 worth ever shown in Brandon.

BUT THERE ARE OTHERS!

An Imported French Blue Montague, Velvet collar—Satin lining, Mohair sleeve lining, corded edge..... **\$12.50**

An Imported Beaver-Bik, Velvet collar, French Worsted body lining, Satin sleeve lining an up-to-date garment **\$14.00**

If you patronize random clothiers, you are very extravagant. N.B. All our Clothing and Overcoats have the Fall and Winter Cut and Style—Pattern—that costs nothing extra.

Underwear!

Come with any need! Any size! Your fancy has been anticipated. Very likely, it has been out done—SEE OUR NINTH STREET WINDOW—the pleasant surprise—even the pure wool (see at 41c), to the exquisite—Silk Finish—Scotch Natural Wool at \$7 will be the lowest prices in Brandon.

Mr. Wm. Taylor, who got his leg broken at the Farmers' elevator, is able to get around again.

McGREGOR.

McGregor, Oct. 14.—By permission from the health inspector, Dr. Pennyfather, school will be reopened on Monday, Oct. 19. The school will be thoroughly cleaned so that no more cases will likely develop.

The Grist mill has commenced running full time again, and the proprietors anticipate a good season. D. Henderson returned from Minnedosa, and L. L. Elliott from Winnipeg, on Monday evening to fill their old positions.

Grain is coming in somewhat later the last few days, but many farmers seem anxious to get more ploughing done than formerly hence deliveries are not as rapid as last year.

Mr. H. V. Byers' new house is nearing completion. When finished it will be one of the finest residences in town.

Lena Murdoch, who has been confined to her bed for about three weeks, is recovering slowly.

Dolly McLean has been very ill for several days, but all are glad that she is recovering, although slowly.

C. G. Elliott, B. A., rode over to Neepawa and back last week on his wheel. The total distance covered was 120 miles.

VIRIDEN.

Mr. Geo. Carscadden was brought home from Brandon Hospital on Saturday evening but slightly improved in health.

The ladies of St. Mary's church sold tea and coffee and dispensed the free biscuits made from "Prairie Light" baking powder on show day. They cleared about \$10 or \$12.

The Women's Help of the Presbyterian church made over \$100 from the table or show day. They have now almost paid for the beautiful furnishings of their church, by their own united labor.

Council of the Viriden Board of Trade met on Tuesday. A committee was appointed to deal with a communication from Department of Trade and Commerce seeking information having for its object the extension of the trade of the Dominion.

The convention of Liberals and Conservatives will be held in Souris next Tuesday. The following gentlemen from Viriden may go: B. F. Foster, J. D. McNeven, W. J. Wilcox, S. S. Colter, D. McIntosh, W. F. Carefoot and G. Silvester.

There is war among the barbers here at present. A shave for 5c, haircut 15c, and haircut and shave for two bits is the ruling price. We will soon have a purely co-operative community in Viriden. There is no place in Canada where men work as cheaply as in Viriden. We ambitious causes here work for glory; but the "filthy lucre" has no charms. Everybody works for the good of mankind.

On Friday afternoon while the driving horses were being exhibited Dr. McMillan's driver became unmanageable and he was thrown out but not seriously hurt. The runaway then made through the crowd for the stable and collided with a horse and buggy driven by Miss Cameron. Fortunately no one was seriously hurt in the mix-up, but the harness was considerably damaged. While assisting in getting the horses upon their feet again one of them struck Thos. Croft on the hand with its foot, the cork of its shoe inflicting a painful and deep gash.

Phillips 20 bushels, James Drury 22 bushels, Varcoe & Phillips 21 bushels, T. Phillips 25 bushels and A. Thomas 22 bushels.—Spectator.

OAK LAKE NOTES.

Alex. Jack has just returned from a wheeling trip. He rode to Hilton and back and says the roads are excellent.

While Rev. Mr. Shaver was hitching his horse on Sunday it took fright at a falling wood pile, ran away smashed through a wire fence breaking the shafts, dashboard and seat. The horse was not hurt.

We learn that nearly all the prizes for cattle, sheep and pigs at the Viriden fair were taken by people in this district. Oak Lake district must have won more prizes this year than any other district in the country.

We hear a lot of talk about the small yield of wheat this year, and it is so, but there is an exception to every rule. Mr. Albert Harvey's wheat yield is the largest exception yet heard of this year. Off 3 acres he had 251 bushels or an average of 84 bushels and 12 pounds. His whole wheat crop went 374 bushels to the acre. These are not immigration figures but the actual amount threshed.

The sudden death of Geo. Scott who lives about 6 miles south west of here, was a great surprise to many people. Although he was a very old man, 88 years, he has always been very healthy and until two or three days before his death was around. He leaves a widow and a family of grown sons and daughters who have the sympathy of the entire community. The funeral took place on Thursday to the cemetery south of the town.

A young man from Brandon rode over to Wawanesa on his wheel the other day in one hour and fifteen minutes. The distance covered was over 20 miles.

ARCHBISHOP OF CANTERBURY.

Tennyson "Crossing the Bar" was sung at the memorial service in St. Matthews on Sunday. Speaking of the late Archbishop of Canterbury at the close of the evening sermon, the rector said he was a Catholic in the fullest sense of the word. As Catholic as the church, he ruled, led and loved, unflinching when any article of the Christian Faith was assailed, yet as merciful and gentle as a child. He was respected by his opponents whether Roman Catholic or Protestant and loved to a degree by all members of the church of England, learned and ignorant, rich and poor, peasant and Queen. He was nominated by that gallant churchman and veteran statesman Mr. Gladstone, and followed to the grave by the present illustrious head of the Conservative party.

He accomplished in fourteen years more than any other man in bringing about a right understanding between the two great parties in the church of England and uniting them in one holy bond of love and charity, truth

and piety. He was buried on Friday in the Cathedral church of Canterbury amid the falling tears of his people and the general mourning of the nation.

Perhaps a greater Archbishop has never occupied the throne of St. Augustine, and the Anglican Commission throughout the world has sustained a terrible blow, but she has also obtained another great example, which will inspire her members for many years to come. How can man die better than in the performance of duty? Rising early on the Lord's Day to meet his Risen Lord in the Bre-king of the Bread, meekly kneeling to receive the forgiveness of his sins by the Lord Jesus in the absolution of the church, passing away to rest in the arms and on the bosom of Jesus, until the Resurrection Morn.

Oh happy Saint, how sweet you rest At Jesus' feet for ever blest. O God of Saints, to thee we cry O Saviour plead for us on high O Holy Ghost, our Guide and Friend Grant us Thy Grace till life shall end That with Thy Saint our rest may be In that bright Paradise with Thee.

A FEARFUL DEATH.

Montreal, Oct. 15.—A big fire is raging here. It began about 1:30 p.m. in Gilmore Bros. & Co. place of business at 31 St. Peter St. Their stock is composed of chemicals and soap of fine quality and is manufactured on the premises. This material, in catching fire, caused the flames to spread rapidly. The flames were communicated, on one side, to Kearney Bros' tea warehouse; on the other to the cigar factory of B. Goldstein & Co.

At three o'clock one of the roofs fell in and twelve firemen were buried under the burning debris. Five men have been taken out badly injured.

Later—Three of the firemen who were entombed in the burning buildings at the fire are dead.

The name of one was Edmond Laporte, he was one of the team that went to the firemen's convention in London this summer.

A LATER ACCOUNT.

The fire was under control about 11 o'clock, when the roof of Gilmore Bros. establishment, 31 St. Peter street, fell in, crashing through the first, second and third floors, and carrying down sixteen firemen in the debris. The following were taken out dead: Edmond Laporte, aged 39; Henry Kim 30; Sylvan Carpenter, 36. Several others were badly injured, but not fatally. The damage to property was about \$100,000; \$30,000 on Gilmore Bros. stock; \$40,000 on the tobacco factory of Goldstein, and the rest of the buildings. The scene when the buildings collapsed with the fire under the burning timbers was heart rending.

THE SOURIS CONVENTION.

As was expected Mr. Sifton received the nomination of the Liberals at Souris on Tuesday. C. W. Speers and J. Young were both nominated and both retired in favor of Mr. Sifton. Mr. Sifton accepted, however, but conditionally—the condition being that the settlement of the school question is acceptable to the province. To that end a committee was appointed to whom the terms of settlement will be referred, and if acceptable to them, he will accept the portfolio of the Interior and the nomination for the division. If the committee reports against the settlement, he will not accept the portfolio or the nomination for the division. This is the report we receive from the meeting which was one of the largest representative gatherings ever held in the province. As a settlement of the question has been reached at Ottawa, and its terms will be made known as soon as considered by the local government in council, the public will have but a short time to wait to learn the finality and the political situation in this constituency.

IN BAD SHAPE.

St. John, N.B., Oct. 18.—Last week one of the messengers of the custom house was arrested for the robbery of a large sum from the safe in that department. Investigation held subsequently of the books of the department showed no entry of this sum. This gave grounds for discovering that a serious scandal had been discovered. The police say the affairs of the department are hopelessly corrupt. The cabinet council yesterday, decided to suspend the officials implicated, and to employ a commission of experts to investigate the workings of the custom house and to formulate a plan of reform in methods. Governor Murray, who was formerly chief of the British board of customs, is appointed at the evidence presented by the police and insists on a thorough investigation.

IN THE COLUMBIA.

Revelstoke, B.C., Oct. 17.—Two men named J. McArthur and Dyell, were drowned in the Columbia river, north of Revelstoke, today. They were towing a boat loaded with supplies for Big Bend, up the rapids, when the boat became unmanageable, pulling both into the river, with above result. J. McArthur is from New Westminster, and Dyell is from Fort Saskatchewan, the former being married. The bodies have not been recovered.

Bagot, Man., Oct. 19.—Mrs. Joseph Buchanan, mother of James Buchanan of this place, aged 85 years, while crossing the track near the station was struck by a west-bound freight train and hurled about ten feet. The train was stopped as soon as possible and the injured woman taken to her home. Dr. Haworth, of Detegor, was sent for, but the shock was too great for her, and she passed away an hour after the accident happened.

CARLTON-GUTHRIE PLAYERS.

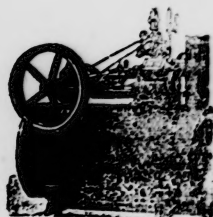

Mr. J. E. Carlton with his talented company opened a four nights' engagement here on Thursday night last playing to crowded houses. Mr. Carlton, who has been in the city for some time, has won the confidence of the people, and as the company was organized here their first appearance was anticipated with interest. The production of their initial drama, "Destiny", showed that the confidence was not misplaced, as Brandon has seldom had the pleasure of hearing such a strong combination of artists. The play is one that requires skill and tact to produce and was given with such effect as to keep the audience between tears and laughter throughout the evening. What is said of "Destiny" may also be said of "Only an Outcast" as each were given full justice eliciting rounds of applause frequently, and what is best were quite free from vulgarities common to most plays. This is a worthy feature and Mr. Carlton deserves credit for his avoidance of such errors which go to prejudice the public against the stage.

Mr. J. E. Carlton as manager and actor sustains a part which none but experienced stage men could take. In his love making to the prairie old maid in "Destiny", Miss Cordelia Dennison (Miss Morris) made a decided hit. To Miss Beatrice Thorne and Mr. Louis Pierce, though, must be given the laurels, having the heaviest parts, and carrying them through with professional skill and a "Romero and Juliet" style of love making. Miss Thorne came highly recommended and the natural way in which she enters into the spirit of the plays fully justifies her praises, especially in her denunciation of the villain. Mr. Henry as Rip Van Winkle was a unique figure rising from his long sleep and delighted the audience, particularly the youngsters, by his uncouth appearance and bewilderment. The other members of the company including Kent Mitchell, a true villain in drama; Kent, Fellows, "Fry-Palmer", Miss Emma Morris and Miss Darrick, with Miss Norcott in song, sustained their several parts well. Mr. and Mrs. (Miss Darrick) "Fry-Palmer" deserve special mention as they delighted the several audiences in song, each having beautiful voices and in their duets in "Sweethearts" fairly captivated the audience. We bespeak for the company bumper houses on their return to the city in December.

Havana, Oct. 19.—Mayor Fondeviola, with a force of 350 infantry, reports having had a combat lasting five hours with a party of rebels under the leadership of Aguirre and Valera, at Huanizal, Havana province. The rebels' positions which they thought they were finally dislodged, were finally dislodged. Major Aguirre, deemed it advisable to return to campo Florida. The rebels also fifty killed. The Spanish losses were six wounded seriously and fifteen slightly.

Sir Mackenzie Bowell is mentioned as a candidate for the majority of Belleville for 1907. Should he accept it is not probable there would be any opposition.

The Indians on the north shore of the St. Lawrence are again destitute on account of fishing failing them, and the department has made arrangements for their relief.

The customs department warns collectors to scrutinize closely the invoices of a New York needle company which is in the habit of supplying false invoices to customers.

A special from Rossland says the War Eagle has declared a dividend of 6 cents a share, also that one hundred thousand shares of St. Kimo have been sold in one block to a Toronto gentleman.

An English syndicate has purchased the mine at Witch Bay, Lake of the Woods, which was being developed by Mr. J. F. Howard and other Winnipeg gentlemen. It is said that the price paid was \$75,000.

At a meeting of the Dominion cabinet Thanksgiving day was fixed for Thursday, November 29, the same day as in the United States. This was formerly the date in Canada but it was changed by the late government.

A seven year old lad named James Johnson, of Toronto, the other evening, was sitting on a car watching the unloading of logs, when a shunting engine backed the car and knocked him under the wheels, mangle him frightfully and causing instant death.

Prof. J. R. Tyrrell, of the Dominion geographical survey branch has returned from Cumberland House, after spending the summer in geographical research in the country west of the Nelson River, and north of the Saskatchewan, a portion untraversed by white men.

Bryan White, owner of the Great Sioux Star mine in Slocan, B. C., arrived in Port Arthur the other day on his way into the Sagu river district to investigate the country with a view of investing, and says if all that is reported about the rich prospects is correct thousands will follow him.

At the civil assize court recently held in Toronto, Miss Alice Hartley, aged 24, was awarded a thousand dollars in a suit against Robert James Jones, aged 50, for breach of promise of marriage. The couple were engaged for over a year, at the end of which time Jones suddenly married his housekeeper.

The Methodist church at Simcoe was destroyed by fire early the other morning. The church, with contents, was valued at \$12,000, of which about \$4,000 was not covered by insurance. Jacobus is suspected. This is the third of a series of bad fires which are believed to be the work of fire bugs.

John Ross Robertson, M. P. of Toronto, has handed his seasonal remittance cheque for \$1,000 to the Sick Children's Hospital, accompanied it with an additional gift of \$1,000. This makes his total subscription to the hospital \$50,000. A new cot, to be known as the Ross cot, will be established in the hospital.

Instructions have been received by the men in charge of construction on the Lake Superior railway to suspend operations for this year, when track laying has reached a point one hundred miles north of Gladstone. As a consequence of this order the town will not be connected with the outside world by rail this year.

A fine new steamer of 4,100 tons, the Anstruther, is to be added to Hindstar's Canada-Australian fleet. She will leave London next February, and on arriving in Australia in April, a new time table will be inaugurated between Sydney and Vancouver, by which the Canadian steamers will call at New Zealand port. The addition of this vessel, was necessitated by the increase in trade.

The Toronto city council sub-committee on Sunday cars considered the proposed agreement with the company preparator to taking a vote of the citizens. A deadlock between the city and company was reached on points as to no employee being required to work more than six days in the week and as to fare to be charged. The company object to the city's restrictions in these points.

The smuggling of Chinamen across the border into Uncle Sam's domains is carried on quite extensively from St. Catharines, Ont. During the past week a dozen or more Chinamen, who have lain concealed there, have been successfully smuggled across the Niagara river. The last batch were taken across disguised as negroes. The operators received \$125 a head for each one landed on the American side.

The people in the vicinity of Parr Sound are not altogether pleased with

the exercise of the executive clemency in favor of Christian Hansen, who was condemned to death for the murder of one Miller, and his sentence commuted by Lord Aberdeen to imprisonment for life. It is not believed that Hansen is crazy but that he has a very depraved mind and the commutation is regarded by many as a miscarriage of justice.

At a meeting of the general board of Methodist missions, appropriations to various missions were made as follows: Japan, \$2,500; China, \$5,025; Ontario, \$12,800; Manitoba and Northwest Territories, \$15,155; British Columbia, \$38,300; Chinese in British Columbia, \$10,817; French in Quebec, \$7,517; domestic, \$80,000; miscellaneous, \$54,025; making a total of \$230,185. Dr. Sutherland donated \$500 of his salary, and Dr. Henderson \$200; Dr. Sutherland's being on condition that it will be devoted to work in the British Columbia mining camps.

TORN BY AVALANCHES.

Great Changes are Taking Place on Mount Tacoma.

Great changes have taken place around the base of Mount Tacoma this year, notable among which are the widening of crevasses, the breaking away of several big ledges of rock here and there, and the enlargement of the mountain stream as a result of snow fields extending down the mountain a mile further than usual. Terrible avalanches have thundered down the mountain, carrying destruction before them.

This week a large Tacoma party came very near being swept away by one. The party included Judge Dillon, Prof. Devereux, Chief Bull, Prof. Newell, Messrs. Wood and Johns, they were half way around Gibraltar, at an altitude of about 1,000 feet, when a deafening noise was heard. The next moment a tremendous avalanche dropped down, the edge of the frozen mass being only a few hundred feet away. It seemed as though the mountain were tumbling down bodily. Investigation showed that an ice mass 300 feet long, 150 feet wide and 200 feet thick, estimated to weigh 200,000 tons, had fallen over a mile into the Nisqually glacier.

Undaunted, the climbers kept on. They found that a ledge of rocks known as the "Camp of the Stars," on the east side of Gibraltar, had fallen into Cowitz glacier. On the south side another big piece of Gibraltar had fallen, leaving only a narrow ledge, so that climbers must use ropes stretched from rocks at either end. Most climbers must now spend the night at Camp Misery, near the top. This consists of a rocky ledge six feet wide and nine feet long, protected by a reef ten feet high.

Frequently six or ten campers sleep, or try to sleep here, the rocks protecting them somewhat from mountain winds, which have a velocity of sixty to eighty miles an hour. After spending the night here the campers press on early in the morning, and on reaching the crevasses, breakfast is prepared by making soup and coffee over steam jets issuing from the interior.

The increased width of crevasses has made climbing more dangerous than ever. Last week Henry Jorgel fell into a blind crevasse, narrowly missing a fall of hundreds of feet. A compensating feature is the fact that mountain goats are becoming more plentiful, the Dillon party last week counting forty-three in one herd, of which they secured six.

Two weeks instead of one now issue from the Nisqually glacier and a side stream has cut into the glacier an ice tunnel 500 feet long, through which climbers can pass.

A GREAT SCHEME.

Proposed to Transmit 5,000 Horse Power From Keewatin to Winnipeg.

The Keewatin Power company is preparing to utilize the immense water power secured through its dam at Keewatin by making a contract for the transmission of at least 5,000 horse power over an electric wire to Winnipeg. The company has been for some time investigating the possibility of making this transmission over the 120 miles between their Keewatin plant and that city. This has resulted in a decision favorable to the scheme and the company is now prepared to enter into a contract with a construction company. The right of way has already been secured through that portion of the route within the bounds of Ontario and no difficulty is anticipated in obtaining a similar concession through Manitoba. Practically the only thing remaining to be done before letting the contract is to obtain definite information as to the amount of power that will be leased by Winnipeg industries. The rate per horsepower per annum is not yet announced, but it is confidently anticipated that the great reduction to be offered over the present cost of operating steam plants owing to the cost of fuel will bring nearly every concern into relationship with the new company. Steps will be taken at an early day toward approaching the different concerns in Winnipeg using any form of power in order to come to some agreement.

Wreck of the Bark Aradine.

The details of the loss of the bark Aradine, which was recently wrecked off Tignish Island, N. S., and ten drowned, where brought in by the condemner, Christian Johnson. He and Ravensham, an able seaman, are the only survivors. According to Johnson, the Aradine belonged to Christina, Norway. She was eight weeks from Greenock, bound for Bay Verte, when she encountered an easterly gale of Cape Ray, and ran for St. Paul's Island. Shortly afterwards she sighted a light which was thought was the northeast light off St. Paul. If it was, the ship was in a bad way. Then the captain saw it was Tignish Island light and immediately heeled the ship on the wind and set all the sail she could bear. The captain ordered the helm hard up, but the ship would not answer to it, and she struck a minute after and her bottom broke up. The captain and first mate were clinging to the main brace. The mate first went over, followed by the captain, a minute later. Then Johnson was swept off and washed ashore with Ravensham, the only other survivor.

Bridge Collapse.

While passing over Knowlton's bridge, at Watertown, N. Y., a large fourteen ton steam roller, used by the city for improving the streets, crashed through the bridge, falling thirty feet and was badly demolished on the rocks below. Luther Smith, the engineer, was caught under the roller and crushed to death.

A DEADLY OCCUPATION.

Bringing Out Borax From the Rifts in Death Valley.

The deadliest occupation for men or horses is teaming in the borax fields of Death valley of the great American desert. There the longest teams in the cracked surface of the earth is not equalled elsewhere in the world. Where the thermometer often registers 140 degrees of heat, unrelieved by even a breath of air; where men sleep at night in hollow dishes filled with water in order to avoid dying from collapse, the necessity for the longest teams of mules and horses ever harnessed to draw the great borax-laden wagons is apparent.

The desert team, the longest in the world, and the percentage of deaths among the horses is greater than that of domestic animals used in any other calling. Forty to fifty horses are often hitched to one of the lumbering vehicles in which the borax is slowly dragged across the sun-baked alkali plains. The average life of even the sturdiest horses in this work is six months, for in this length of time they either become broken, winded, consumptive from inhaling the deadly dust of the desert or are driven crazy by the frightful heat.

A man there, though protected by the wagon's awnings from the sun's rays, cannot go an hour out water without danger of death. When a team breaks down and the water supply becomes depleted, the men ride on at top speed for the nearest source of supply, and often when they return they find that the remaining horses, made mad by thirst, have broken from the harness and dashed off only to find death in the desert.

The borax wagons weigh 5,000 pounds and carry 200,000 pounds at a load. Behind each wagon is a tank containing hundreds of gallons of water. The horses are harnessed in pairs, the trained ones in the lead, and the next in intelligence just ahead of the tongue, while the unruly and youngsters are hitched between. The lead horse has a bridle with the strap from the left jaw shorter than the other and from the bridle runs a braided rope which the driver, perched on the wagon seat, holds in his right hand.

The rope is called the "jerk line," and is a little longer than the team, which stretches out several hundred feet in front of the wagon. During the busy season the borax wagons make an almost continuous train, and the horses alone, if placed in single file would make a team more than 100 miles long.

Besides a little food and water the poor animals get no care. They carry themselves by rolling in the burning sand. After a few months of the killing labor the poor creatures become unfit for service. A kindly rider had then ends their agony, and their emaciated carcasses are left alongside the trail to furnish scant picking for the hovering vulture.

ADAM'S GINGER BEER.

For Making a Delicious Health Drink at Small Cost.

Receipt:— Adams' Root Beer Extract...one bottle Fleischmann's Yeast one half to one cake Sugar...one and one half pounds Cream Tartar...one half ounce Lukewarm water...two gallons

Dissolve the sugar, cream of tartar and yeast in the water, add the extract, and bottle; place in a warm place for twenty-four hours until it ferments, then place on ice, when it will open sparkling, cool and delicious.

The ginger beer can be obtained in all drug and grocery stores in 10 cent bottles to make two gallons.

Another Train Held Up.

A special from Salt Lake City says, The Union Pacific train was held up, a short distance of Utah, near the mouth of Weber Canon, about eight miles from Ogden. It is supposed two men did the job but how much booty they got is not known. The engineer who left the train ran ahead to Utah and reported the hold up. It is believed from the conversation of the men as they went through the train that they intended to blow up the express car with dynamite. A train made up at Ogden was despatched to the scene of the robbery, and orders given to organize a posse and run the robbers down.

"What in thunder are you speaking to the school children for?" asked the voter. "Just keep quiet," replied the candidate. "They'll all be old enough to vote before I'm elected."

A Boon to Horsemen.

One bottle of English Spavin Liniment completely removed a cure from my horse. I take pleasure in recommending the remedy, as it acts with mysterious promptness in the removal from horses of hard, soft or calloused lumps, blood spavins, sprains, curbs, swellings, and all ailments. GEORGE ROSS FARMER, Markham, Ont.

"There doesn't seem to be much of a demand for seats to this performance," said the star. "No," said the manager, "as he ran over a bundle of dead-head applications; 'nothing but request'."

Constipation Cured.

GENTS—I was in very poor health for over four years; the doctor said it was constipation. Not waiting to spend too much cash, I got three bottles of B. B. E. and took it regularly. I can certify that I am now in the best of health and feel very grateful to B. B. E.

ALFRED TIBBON, Montreal, Que.

"Dearest! He stopped reading his paper long enough to ask what his bestest little wife might want. 'When they mark the dollars down to 50 cents, will it be every day or only on Fridays?'"

As Well as Ever.

DEAR SIR:—After suffering for two years from acute indigestion, I tried B. B. E. I took only three bottles, which made me as well as ever I was. I highly recommend B. B. E. to all dyspeptics.

Mrs. JOHN WILKIE, Austin, Man.

"We girls are going to have a harvest home festival." "What! to show big pumpkins and things?" "No such nonsense, engagement rings and photographs."

One Every Night. One Laxa-Liver Pill taken each night during 30 days will cure Constipation, or returning Headaches and irregular action of the bowels. Laxa-Liver Pills leave no unpleasant after effect.

ONE OF THOUSANDS.

"I Was a Martyr to Sick and Nervous Headaches Caused by Constipation, Until for Business on an Average 2 Days a Week."

"Some Pills Helped Me, but Dr. Agnew's Liver Pills at 10c. a Vial Cured Me."

"This is My Own Testimony and it's a Fact. Now I Never Lose an Hour or Miss a Meal."

This is a written statement of a well known Toronto journalist—you can have his name if you want it. Dr. Agnew's Liver Pills at all druggists, 40 in a vial, 10 cents.

"What office are you after this time?" "None at all." "Then what are you running for?" "Because I don't want to be conspicuous."

EAGER TO TELL IT.

There's a Ring of Geniality in Testimony Upon Testimony that Pours in From the Great Army of One-Time Sufferers Sounding the Praises of Dr. Agnew's Great Cures—Heart Disease and Catarrh Relieved in a Few Minutes and Permanently Cured.

IF THERE IS PALPITATION, Fluttering of the Heart, or shortness of breath, it denotes heart trouble. If there is pain over the eyes, foul breath, or a simple cold in the head the first seeds of dreaded catarrh may have been sown. Be warned in time. These good remedies never fail to cure.

THE HEART.—Mr. George Witter, Walkerton, writes: "Three years ago my daughter, 15 years of age, began to be troubled with palpitation and fluttering of the heart. It increased until she was unable to attend to her daily duties. Could not lie on her left side. We had doctored without any results. We had heard of the excellent results following the use of Dr. Agnew's Cure for the Heart. We procured it and from the very first dose it helped her. Before the first bottle was taken she could sleep on either side. Another bottle entirely restored her. That it saved her life I have no doubt, and I feel it my duty to tell suffering humanity of this great cure."

CATARRH AND DEAFNESS.—John McManis of Washabuck Bridge, writes: "I used Dr. Agnew's Catarrhal Powder and found it a wonderful cure for catarrh and deafness. I can hear as well as ever I did, and all signs of the disease have disappeared. I have never lost an opportunity of recommending it to others, and you will please send me a bottle for a neighbor who was afflicted as I was." PILLS.—One application of Dr. Agnew's Pile Ointment gives instant relief to itching, bleeding or blind piles, and a permanent cure is not a tedious one. It acts quickly, 25 cents.

Wicks—I heard a pretty compliment to Hamlin, the actor, to day. Squeezicks says he possesses the art which conceals art. Hicks—That's a fact, you'd never know he had any.

Tobacco Heart. Much heart and weak nervousness is caused by undue use of tea, coffee or tobacco; palpitation, nervousness, irritability, excitability, lack of confidence, etc., are sure symptoms. Milburn's Heart and Nerve Pills bring instant relief, by steadying the nerves and regulating the heart. They are a true heart and nerve food.

Miss Keedick—Ethel can't be after money. She has broken her engagement with that wealthy ice man. Miss Fossick—Don't be too sure. She jilted him for a man who owns a bicycle repairing shop.

Dr. Fowler's Extract of Wild Strawberry cures Diarrhoea, Dysentery, Cramps, Colic, Cholera Morbus, Cholera Infantum, and all bowens of the bowels. Never travel without it. Price 35c.

Canny—Is Miss Wilbur at home? Nora—No, sorr. Canny—Well, go upstairs and ask her when she will be at home. Nora (going)—Yis sorr.

Itch on human and horses and all animals cured in 30 minutes by Woolford's Sanitary Lotion. This never fails.

"Jokey is in hard luck?" "What's the matter?" "He has lost last year's crop of football jokes, which he intended working off on his editor."

Dr. Fowler's Extract of Wild Strawberry cures Diarrhoea, Dysentery, Colic, Cramps, Cholera, Cholera Infantum, Cholera Morbus and all summer complaints and fluxes of the bowels in children or adults.

Sunday school teacher—What is the leading doctrine of Christianity? The laundryman—Kid throw stone—smashes glass—no can catches—forgiveness.

You'll Enjoy the Winter

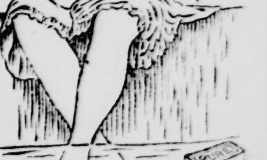

through all its varying moods if you have your clothing interlined with Fibre Chamol. This wonderful fabric is so light that you never notice its presence in a garment till you get out into the wind and cold, then you realize that you are cozy warm even tho' lightly clad. Fibre Chamol is a complete non-conductor of heat and cold, not the strictest wintry blast can penetrate it, nor can the natural warmth of the body escape through it. This explanation and the fact that it sells for 25c. a yard gives the whole story, and easily proves that for health and comfort's sake you can't do without it.

DR. SUNSHINE.

Health the World is a World of Sickness—With Disease, a Dark, gloomy, Prison-Like Abode—The South American Remedies Have Brought Back the Sunshine to Many a Life.

Rheumatism—What joyful news to suffer from chronic rheumatism. That instant relief and cure can be had in from one day by using the Great South American Rheumatic Cure, which is a fact, but thousands say it's a fact, "For I suffered untold misery in my joints for months I was confined to bed. I used all the ordinary remedies, but I could pay my hands on, American Rheumatic Cure, and it gave me instant relief. A bottle cured me."—George J. Burgess, Petrolia.

Spontaneous, unlearned, is the highest recommendation given the Great South American Kidney Cure. What it has done for me, it can do for you. It is a kidney cure, quick relief in all kidney troubles, head and strong, McMillen, Chesley, Ont. I had been troubled with kidney disease for eight years, and doctors could not cure it. I procured a bottle of the American Kidney Cure, took it according to directions. I got instant relief, the soreness all left me, today I am cured of the disease, and recommend this remedy to all similarly afflicted.

We live in a hurry and our ailments are due to indigestion, impoverished blood, and impure food. South American Kidney Cure, it comes to the rescue, stimulates digestion, and makes food a burden. It is a kidney cure, quick relief in all kidney troubles, head and strong, McMillen, Chesley, Ont. I had been troubled with kidney disease for eight years, and doctors could not cure it. I procured a bottle of the American Kidney Cure, took it according to directions. I got instant relief, the soreness all left me, today I am cured of the disease, and recommend this remedy to all similarly afflicted.

I was completely cured of my kidney trouble. I had been suffering from it for years, and doctors could not cure it. I procured a bottle of the American Kidney Cure, took it according to directions. I got instant relief, the soreness all left me, today I am cured of the disease, and recommend this remedy to all similarly afflicted.

THE GREAT FUTURE AND PAPER. It is little wonder that the publishers of the Family Herald and Weekly Star, Montreal, and their business tremendously on the increase. True merit tells in Canada as well as any country in the world, and no one can deny that the Family Herald and Weekly Star is a thing of rare merit that would command success anywhere. There are people in this country who have been taking the Family Herald and Weekly Star for upwards of a quarter of a century, and they declare that it is making greater advances in the way of improvement than in any year in the twenty-five years ago no one could believe, without seeing it, that it could in such a short time become so vastly superior to itself. We understand the price is only one dollar a year, and this year the dollar will secure that wonderfully pathetic picture that is creating such a sensation abroad, entitled "The Orphan's Prayer."

CAUGHT IN THE FLAMES. Grissold, Man, Oct. 16.—A terrible accident occurred a few miles south of here yesterday. A young man named Dait while plowing some fire guards was overtaken by the prairie fire and so badly burned, there is little hope of his recovery. He was found lying on the burnt ground, unable to help himself. His clothing was burned nearly off, and his face, hands and legs were terribly burned. He was sent to Brandon hospital this morning. The horses were badly burned, also a large quantity of hay and some grain stacks.

Mr. Frank Burnett and wife of Vancouver, B.C., were in the city last week for a few days visiting friends, while en route to Liverpool, Eng.

Henderson & Matheson have moved their law office to the Fleming block. The Sun says the block still wants a bank. One is always handy to have control of for a newspaper man.

John R. Clark gave his celebrated lecture "To and Fro in London" on Monday evening in the Methodist church. The lecture is full of pathetic incidents of life in the world's metropolis interspersed with humor and was greatly appreciated by the audience.

The death occurred on Monday at Hamilton of Mr. C. A. Turley, V. S., a highly respected citizen of that village.

Deceased was a son-in-law of Mr. John Beuge and was 38 years of age. The funeral on Thursday in this city will be under the auspices of the I. O. O. F. and K. of P.

Harvest thanksgiving service in connection with the Church of England Mission, Alexander, will be held on Sunday next at 3 p.m. The preacher will be the Rev. Dr. O'Meara, Canon of St. John's cathedral, Winnipeg. Offerings will be devoted to the Home Mission Fund.

A. Needo, with Hughes & Co., had a narrow escape from instantaneous death on Thursday. While starting with a load of lumber from the N. P. yards the horses ran away upsetting the load and throwing 3,000 feet of lumber on him. He was rescued in a few moments and strange to say was but little hurt.

Mr. and Mrs. Cliffe returned Saturday from their eastern trip. While on the old homestead near Gananogue now owned by his brother, Mr. Cliffe held up to a branch his three year old son Herbie to pull a twenty ounce peppin, 14 inches in circumference, from a tree he grafted some 40 years ago. The tree was then cut a sapling and is now 45 inches in circumference and bears three or four kinds of apples.

C. C. Condie, Esq., late of Oak Lake, and later still of Gladstone, is now in the city the guest of R. J. Noxon, having accompanied Detective Foster from Portage la Prairie on Tuesday's express. This gentleman was worth \$1,000 in hard cash a few days ago, and today he is penniless living on the charity of the public. Of such are the fluctuations of speculative life. It is likely he will have a conference with our court officials in a day or two as to his future prospects.

Mr. James McKenzie, of Burnside, the Liberal candidate for Lakeview, is one of the most extensive farmers in this province. Last year he raised 30,000 bushels of wheat and a large quantity of other cereals as well. This year the wheat crop was not so heavy as last season's, only yielding 15,000 bushels, but as he still holds 20,000 bushels of his last year's wheat, he will have 35,000 bushels to sell at the high prices now prevailing. He expects that his wheat growing operations for the two seasons will net him \$20,000 in round figures.

Evidences are multiplying to show that farmers in Manitoba need not lack prosperity, even in years when their wheat yield falls below forty bushels to the acre of No. 1 hard. The rich soil of this country is capable of a great variety of productions, and in the future, no doubt, many new ways of making money will be learned. Mr. Cyrus Wardell, who resides five miles south of Stonewall, has had some success this year in his first experiment in growing chicory. He put in about an acre and a half, and the yield has been one ton to an acre, which is considered very good. A sample was taken by Dyson, Gibson & Co's works, where it was roasted and ground. The quality seems to be very satisfactory. The financial returns from the enterprise have not yet been reported.

Only 100 miles of the Dauphin road will be completed this season.

Hood's Pills cure nausea, sick headache, indigestion, biliousness. Sold by all druggists.

Neepawa seems to be the banana market for wheat this year. One load brought its owner 93c per bushel, and frozen wheat is bringing over 40.

E. Cavillier, of Findlay, is in the toils in this city charged with stealing wheat from John Rey, of that place. His case will be heard by the County Court Judge on Friday.

Although wheat delivery is unprecedented in the history of the country, the railways appear to be able to move the deliveries without trouble. The price is still going up in Chicago, without an apparent cause, and where it is going to end no one appears able to predict. The turn of things this year is inexplicable, as, taking other breadstuffs into account, the shortage does not warrant the advances.

The Markets.

So far this season has been the buyers' year par excellence. From the start the price has been ascending so there was no possibility of loss. As we have said all along we see nothing to guarantee the continuation of an advance. There is a shortage in Canada and other countries. It is true, but there is a very large yield of other breadstuffs, such as corn, oats, rye etc., which in the natural order of things are more or less a check on the price of flour. However, we are not gifted with prophetic vision and when the turn may set in we cannot say; but it is morally certain the scare of "short crop" will drive the price above what the circumstances will warrant, and then panic will prevail and prices drop below what they ought to be.

So far close on to 600,000 bushels have been delivered here, and some of the dealers say this is the bulk of the export product. It is estimated fully one-third of the yield is No. 1 hard, another third No. 2 and the rest anything. As high as 65 cents was current yesterday, and choice lots brought even more. Oats are quoted from 13 to 15, potatoes 20; beef live 2 1/2; pork live 2 1/2; mutton 3; butter 18 and eggs about the same.

ABSCONDER CAPTURED.

Gladstone, Man., Oct. 19. — C. C. Condie, the absconding Oak Lake operator, was arrested here at half past ten o'clock to-night.

Condie came to a farmer's place this morning, named Walters, and engaged with him threshing. A nephew of Walters, working with him, noticed that he was not used to hard work, and having heard of the Oak Lake robbery, took particular notice of him, questioning him closely. Condie was close, saying as little as possible, and would not say anything as to where he had been lately; but he seemed to know more than the ordinary farmer about the late C.P.R. strike. As his description answered the circular, Adamson, Walters' nephew, quietly stole away, and informed the agent at Gladstone of the fact. Constable Bun was sent out immediately, who arrested Condie. All the money was found on him. He has confessed that he is Condie.

=Plain Facts

This is the largest Grocery in Brandon. The mere bigness doesn't necessarily mean anything, but bigness which has come through natural growth can indicate nothing but the fact that the business has been one which met the approval of the community in which it existed.

It means that there has been fair and liberal dealing all the time, and that most of its transactions have at least been satisfactory.

We want to do more business as the years go by. We want your trade and that of your friends. Maybe the following prices will interest you to the extent of giving our store a visit.

Do you know that Burrow, Stewart & Milne, of Hamilton, make

A Cook Stove

That Saves Cords of Wood

It is the "Grand Jewel," made with Milne's patent steel oven, all in one piece, and Front Flue, covered by Canadian and American patents. It will actually do a baking with two-thirds the fuel required by any other stove, and it will last a lifetime. What on earth is the use of burning up a lot of wood or coal, when you might as well save it? Don't take anything for granted, but come in and see this stove. It is a perfect beauty, and for the money asked is the cheapest stove on the market. It is made in four sizes, to suit all. Fully guaranteed by the manufacturers, and if you don't like it after a fair trial, you get your money back.

If you know a good thing when you see it, SEE THIS STOVE.
